

OEC Update: Interoperability Council Subcommittee Vacancy Public Notice

The State Interoperability Council (IC) is established under Wis. Stat. § 15.315 and 323.29 to develop strategies and recommend standards and guidelines for achieving statewide communications interoperability for Wisconsin's public safety community. The IC Charter outlines the authority, purpose, and responsibilities of the IC. Members are appointed by the Governor and represent key state and local stakeholders.

As the main statewide planning and governance body for communications interoperability in Wisconsin, the IC has created several subcommittees and working groups to address particular communications issues. There are four subcommittees: 9-1-1, Land Mobile Radio (LMR), Public Safety Broadband (PSB), and Wisconsin Interoperable System for Communications (WISCOM). Additionally, the Communications Unit Workgroup falls under the LMR Subcommittee. On January 28, 2021 the IC adopted updated [bylaws](#) which govern each of the four subcommittees and provide more information about the responsibilities of each. The updated bylaws also require that a public notice be given when the IC intends to fill a vacancy on the LMR, WISCOM, or PSB Subcommittees.

As of June 8, 2022, the IC intends to fill the following vacancies:

LMR Subcommittee

1. Northeast Region Representative

WISCOM Subcommittee

1. West Central Region Representative

To apply for a vacant position listed above, please submit an application using the following form: [Subcommittee Membership Application](#)

All applications must be submitted using the form above or emailed to interop@wisconsin.gov by **July 7, 2022**, which signifies the end of the 30-day application period.

For more information about the application process, please refer to the [Steps for Applying for an IC Subcommittee Vacancy](#) document found on the OEC website (<https://oec.wi.gov/>).
