 - ii. I have been employed by the Barron County Sheriff's Department since May of 2000. Initially I was employed as Jailer/Dispatcher and after May of 2004 my position was changed to communications officer when the position was separated from the jail. I have been in my current position as the Lead Communications Officer since April of 2016. In my position I work under the Emergency Services Director to assist in supervision of the day-to-day operations of Communications Center and personnel working in the Communications Center. I

have been interested in radio communications my entire life and have vast knowledge of radio communications systems. I develop and program the fleet maps for the Sheriff's Departments' mobile and portable radios. I troubleshoot and correct any issues with the Sheriff's Departments' multi-site communications system and contact the appropriate vendors if repair is needed. I have taken the COML and COMT training courses and am involved with Washburn County's Northwest Area Region Field Communications team. I am the Communications Representative for Emergency Services of Barron County. I enjoy the challenge of coming up with solutions for issues relating to radio communications.
